

# Build Your Portfolio: 2nd Web Project

---

## User Stories:

1. As a social media user, I want to be more expressive online through the use of giphs.
2. As a social media user, I want to be able to type in a keyword and receive a variety of different giphs I can use on all platforms.

## Wireframes: Desktop View

Links to every section of the website.

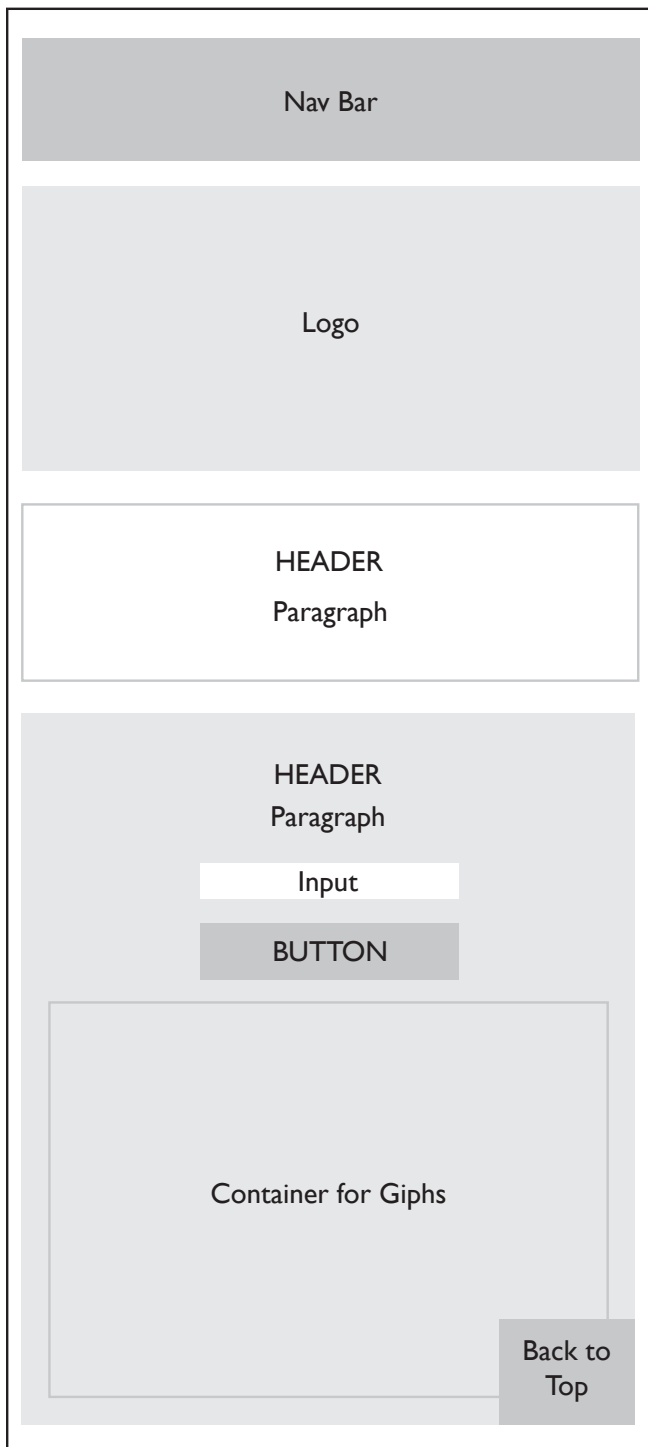

About section.

Generator section. Includes the search engine.

Container where all of the gifs will appear when the user calls to the API through whatever they input in the search engine.

Back to top button - brings user to the top of the page to reduce scrolling.

## Wireframes: Mobile View

Collapsed nav bar

About section.

Generator section. Includes the search engine.

Container where all of the gifs will appear when the user calls to the API through whatever they input in the search engine.

Back to top button - brings user to the top of the page to reduce scrolling.
