# Build Your Portfolio: 2nd Web Project

User Stories:

1. As a new gardener / hobbyist, I want to be able to look up detailed information about my plants so I know how to care for them best.

2. As a researcher, I want to be able to type in the name of any plant in the world and instantly get up-to-date informations, taxonomical references and more, within seconds so I can quickly and easily add to my findings.
